## CHILDREN'S BOOKS.

TREASURES FOR THE HOLIDAYS. Mr. Bret Harto's "Queen of the Pirate Isle" (Hough sen, Midlin & Co.) is a sketch in his early voin. Possioly the children for whom it is intended may not fully appre-sinte its humor, but their elders will get out of it enough enjoyment for both. His characters are all true to life. more real than the actual world about her; the small ye whose blood is fired by the ambition to test the joya of a corsair's career; the little Chinee whose painful tity forblis him to haulge in the tlinsion that he an be a " first chop plint " - inside bousee," or that he can possibly be hung to a yard-acm which is " alice same es hose for wa-hoe washee"; -all these are as real as they are delightful. Issuing forth in a clandestine attempt to become what little Wan Lee calls "leal Queen Polly, Hickory, her cousin, and the Chinee buy met "Paisey, the son of a neighbor, sun-burned, broad-brimmed hattel, red-handed like them-

As there were afterward some doubts expressed whether he joined the Pirates of his own free will or was captured by them, I endeafor to give the colloquy-exactly as it occurred:
Parkey-Hallo, fellers,

Patsey—tioin' to hunt bars † Dad seed a lot o' tracks at sun up.

The Pintes (hesitating)—No-o.

Pat-ey—I am; know where I kin get a six-shooter.

The Pirates (almost really its abandon piracy for bear-hunting, but preserving their dignity)—Can't! We've runned a way for real pirates.

Patsey—Not for good!

The Queen (interposing with sad dignity and real tears in her round blue eyes)—Yes! (slowly and shaking her head.) Can't go back again. Never! Never! Never! The—the—eye is cast.

Patsey (bursting with excitement)—No'o! Sho'o: Wanter know.

Patsey (burshing with excilement)—No'o! Sho'o! Wanter know.

The Pirates (a little frightened themselves but tremblous with gratified vanity)—The Perlese is on our track! Patsey—Leanne go with yer!

Hickory—Wo'll yer giv I
Patsey—Platel and er bananer.
Hickory (with in iceous prudence)—Let's see 'em.
Patsey was off like a shot; his bare little red feet trembling under him. In a few minutes he returned with an old-fashloued revoiver, known as one of "allen's pepper-bores," and a large banana. He was at once enrolled and the banana caten.

The conclusion of this desperate undertaking the reader must seek in the book. It is rather inartistic, perhaps, that these young corsairs should be permitted to discover a hidden treasure, but it is probably that

discover a hidden treasure, but it is probably that part of the story which will most please the youthful mind. Miss Kate Greensway's illustrations beautifully printed in colors are very dainty and certty in themsolves; but they show no faintest spark of tumor and suit neither the story itself nor its Californian

Florence Montgomery's "Transformed" (J. B. Lippin cott Company) is a touching story of the change worked in a hard and self-sh man by the presence of a tender-hearted child. The tueme is not a new one nor is it fronted in a novel way, but it is a graceful and sugges-

tive story for all that. What Katy Did" was unique in its way; its success presentation of chid's character. Nevertheless, those who have enjoyed that inimitable book will be eager to see " What Katy Did Next " (Roberts Brothers). In this

last volume Susan Coolidge finishes the story of true-hearted Katy's girl-life and leaves her at the threshold The Cruise of the Black Privateer," by Commander Lovett Cameron (Belford, Clarke & Co.) is an honest and straightforward boy's book of a style which deserves to live. It lacks the numor and sprightliness of Marryat's ories, but it is somewnat handleapped by the exi-

sencies of the period in which the story is cast. The adventures of the "Binck Prince" are told by her captain, Robert Hawkins, and the time is that in which hold English seamen thought it no shame to engage in the slave trade, and pious English merchants amassed wealth by the same 'radie. Privateering had indeed ceased to be Cisquired piracy, but many irregularities were winked at in the business. Master Bob Hawkins was a good seaman and clear headed, and he gets into and out of various difficulties which enable him to snow his accility. The characters are well studied, though apparently the author scarcely attempted to reproduce the speech of the period, or if he did attempt it, tound the undertakdifficult. The introduction of a highwayman who may seem rather a stift demand upon the reader's credulity, but during the Jacobite disturbances and plottings it was really not unusual to encounter adventurers who were thus Jacks of all trades, and who changed their occupations upon emercency quite as radically as Trevor in this story. If the latter has a fault it is that the good fortune of the " Black Prince " is too continuous. Of course she must have come out all right in the end, and ewered port with all her bunting displayed, a comple of French fractes manued by her prize crows in her wake, and several puncheous of Spanish doublooms In her hold. But if she had been exposed to more danger; had been captured by pirates or African sav-ages; nearly sunk in action or nearly blown out of the water in a hurricane; it would have added zest to the prosperity of the enting. The healthy and unpalled youthtul literary palate, he wever, will no doubt welcome the story just as it is, and its instinct will be justified by Mary Cowden Clarge's story, "Uncle Peep and I

(Roberts Brothers), is a charming bit of child-romance. It is tell of gracious lessons of sympathy, love and goodness and it is told with a gentle simplicity that is very engaging. There is a treshness of feeding in the litt novel that bears winning testimony to the ever-youthful

Mrs. Moles worth's books are always poetical in concep tion and always teach some beautiful and noble moral. Het new story. " Four Winds Farm" (Macmillan & Co.), has all the charm of its prefecessors. The little red books that make up the series of "the Gillettes" (Robert Carter & Brothers) tell the story of the tight for existence of a widow and her six young calldren. They are remarkably good children-who come to honor and good fortune; and the various steps of their progress are fullo; instruction for the youngsters who read. These tooks are the work of the author of the " Win and Wear " ceries. In Pictures and Songe for Little Children " (E. P. Dutto & Co.) are presented a number of neat illustrations and a collection of verses which have no pretensions as poerry but which are sufficiently bright and musical to please childish cars and eyes. One of the pretiest of the Chris mas books in a modest way is the volume of "Meadow-sweet to Mistletoe" (Worthington Co.), with pictures and verses by Mary A. Latabury. Tue little verses are full of pleasant sentiment and the illustrations while they are not particularly arcistic are sugges

For the youngest readers and those who must still be "read to" there are no better books than the bound mes of various illustrated magazines sublished for the especial benefit of these little persons. " The Pansy (D. Lothrop & Co.), edited by Mrs. Alden (" Pansy "), is full of fresh and wholesome stories of child-life. Chatterhox" (Estes & Lauriat) reproduces a noted English periodical in whose successive volumes children baye long delighted. "Young America" (Aldine Pub-lishing Co.) an interesting publication of the same sort. was presumably in its original state " Young England." Oliver Optic's fascinating little magazine" Our Little Ones and the Nursery" (Estes & Lauriat), is a beguiling collection of charms against weariness and fretfulness.

HENRY JAMES SAYS OF "SHE STOOPS TO CONQUER." ILLUSTRATED BY EDWIN A. ABBEY:

"This is the best work that Mr. Abbey has done; here we see his happiest characteristics. No work in black and white in our time has been more truly artistic, and certainly no success more unqualified. The artist has given us a complete evocation of a social state to its smallest details, and done it with an unsurpassable lightness of touch. The whole place, and hie figures that come and go in it, live again, with their individual look, their peculiarities, their special signs and od-dities. The spirit of the dramatist has passed completely into the artist's sense, but the spirit of the historian has done

"It is a rare pleasure to find among the scores of holiday books issued at this season one so superb in conception an execution as Dante Gabriel Rossetti's poem, 'The Blesse Damozel, 'illustrated by Mr. Kenyon Cox. Mr. Cox's work is Damozel, illustrated by Mr. Kenyon Cox. Mr. Cox's work is not only strikingly original, but it is remarkable for the amount of thought expended upon it, and not less for its mas-terly execution and finish, in several instances approaching very nearly to the strength and purity of the ancient Greek modelling. It is almost impossible to curb one's enthusiasm in looking over Mr. Cox's pictures; surely few artists have executed within a year or more twenty such paintings as these which are reproduced to illustrate Rossetti's poem with marvellous accuracy."—[The Capitol, Washington, D.
